## INSTRUCTIONS

This report is to provide information as a basis for the design of the Federal building specified on the face of this form.

Additional copies of the form, or attachments on plain paper with appropriate headings, should be used if necessary to furnish complete information. If space is not desired in the proposed building, enter a statement to that effect at the bottom of Part II of this form.

## PART I

< C

A and B: NET SPACE NOW OCCUPIED. Enter complete information for each kind of occupancy. Use a separate column for each building. Enter the building name in the space provided, and give the aggregate of each kind of space occupied in the building. The dimensions for computing net space are taken from the inside faces of exterior walls to the faces of corridor walls, and from center to center of cross partitions (or the faces of partitions separating net assignable areas from other areas).

## PART II.

NET SPACE REQUIREMENTS. The entries here should indicate the net space requirements based on staffing permitted by current appropriations or authorizations. Space allowances for additional staffing based on future programs will be allowed by GSA only if such programs have Bureau of the Budget approval. Space ultimately will be assigned in accordance with GSA Reg. 2-II, with due regard to the allowances set forth in section 502.00 of that Chapter. Agencies should be guided accordingly in stating estimated net space requirements. Exclude estimated space requirements for temporary or emergency expansion.

PROPOSED USE OF ROOMS: List the types of occupants such as "Executives", "Junior Executives", "Secretaries", and "Clerks" in the order of planning arrangement, or in the order of preferred arrangement if no plan has been made. If any of the following types of rooms or facilities are needed, give the additional information required for each:

Conference or meeting room - Number of persons to be seated.

Counters - Length and location.

File Room - Number and type (letter, legal or special) of file cases.

Laboratory - Quantity and dimensions of fixed equipment.

Library - Number of volumes and readers.

Service platform and yard - Number and size of vehicles and extent of shipping activ-

ities.

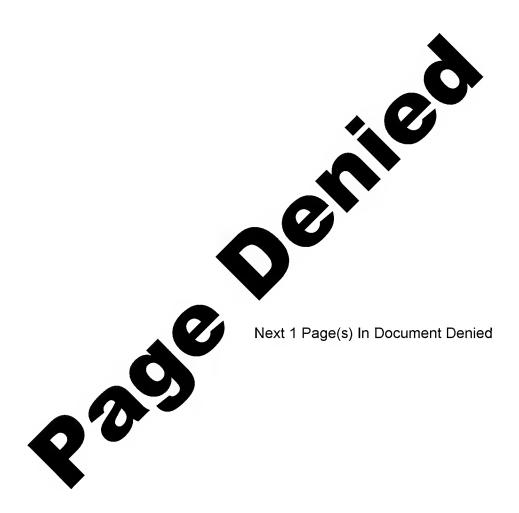

Storage and supply room - Quantity and type of material stored and extent of

activity.

Vaults - Size and purpose.

A special justification is required, explaining the need in detail, for any unusual requests for space.

Complete and accurate data must be entered in Part II; the size and cost of the contemplated building will depend upon these data.
